# 1. Identification of the substance/mixture and of the company / undertaking

#### 1.1. Product identifier

# SeaProtect Tape G120

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Self adhesive glass cloth tape

Uses advises against: No information available at present.

### 1.3. Details of the supplier of the Safe Use Instruction Sheet

SAINT-GOBAIN ISOVER G+H AG Bürgermeister-Grünzweig-Straße 1 D - 67059 Ludwigshafen/Rhein

Telefone: ++49 (0)621 501 2096 Telefax: ++49 (0)621 501 201

E-Mail: dialog@isover.de

### 2. Hazards identification

#### 2.1. Classification of the substance or mixture

The article is not classified as dangerous in the terms of the Regulation (EC) 1272/2008 (CLP).

#### 2.2. Label elements

n.a.

#### 2.3. Other hazards

The glass cloth is composed of glass filaments above 3µm in diameter, consequently not reach the lower respiratory tract and therefore have no possibility of causing serious pulmonary disease. The products are not classified as hazardous according to European Directive 67/548/EEC and its latest amendments. Mechanical irritation (itching), eventually allergy (extremely rare) may occur by dust generated on product processing.

# 3. Composition / information on ingredients

#### 3.1. Article

Glass cloth (CAS no. 65997-17-3) coated with acrylic adhesive (CAS no. 9003-49-0).

<sup>\*</sup> In Consideration of Commission Regulation (EU) 2015/830. Safety data sheets are mandatory only for dangerous substances and mixtures. ISOVER glass wool products are NOT dangerous.

Issued: 21 March 2019

Printed: 21 March 2019

# 8. Exposure controls / personal protection

#### 8.1. Personal protection

Eye protection: We recommend tight fitting protective goggles with side protection.

Skin protection We recommend protective working garments (e.g. gloves, long-sleeved)

protective working garments).

Respiratory protection: Not necessary.

#### 8.2.1 <u>Environmental exposure controls</u>

No information available at present.

# 9. Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

Physical state: Solid Colour: White

Odeur: Not determined

pH-value: n.a

Melting point/freezing point: Approx. 850 °C (glass cloth)

Flash point: n.a.
Flammability (solid, gas): n.a.
Lower explosive limit: n.a.
Upper explosive limit: n.a.

# 10. Stability and reactivity

### 10.1. Reactivity

No hazardous chemical reaction to be expected.

#### 10.2. Chemical stability

Stable with proper storage and handling.

### 10.3. Possibility of hazardous reactions

./.

#### 10.4. Conditions to avoid:

Avoid temperature exceeding 200°C.

#### 10.5. Incompatible materials

./..

#### 10.6. Hazardous decomposition products

See also section 5.2.

No decomposition when used as directed.

# 11. Toxicological information

#### 11.1. Information on toxicological effects

n.a.

#### 11.2. Localised effects:

Possible temporary irritations of skin and eyes by dust.

### 11.3. Sensitization:

In rare cases some allergies have been reported.

# 12. Ecological information

It is not expected that the tape cause harm to animals, plants or fish.

# 13. Disposal considerations

Depending on local regulations tape wastes can either be considered as inert waste or as common industrial waste. Small quantities can be disposed of with household waste.

# 14. Transport information

#### 14.1. UN-Nummer

n.a.

#### 14.2. UN proper shipping name

n.a.

#### 14.3. Transport hazard classes

n.a.

#### 14.4. Packing group

n.a.

#### 14.5. Environmental hazards

n.a.

#### 14.6. Special precautions for user

The tape is not considered as hazardous good by transport regulations.

#### 14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

Non-dangerous material according to Transport Regulations.
